Thank you Vicki.

Can we set up a time to discuss internally? We are receiving repeated requests from the parents regarding assisting with improvements, and Cathie has been very accommodating but I think their expectations are not on City time. We'd like to get a better understanding of the current terms and any future terms.

I'm back in the office next week, if you want to shoot us some date/times?

thanks!

Chris and Dan,

The deafening sound of crickets after my last email is driving me to inquire again- do you have any updates or solutions for Canyon School? There is most definitely a chain link fenced in area behind the senior center (for which we are grateful) but there has been no other movement. Not shockingly, herding our children over to a small penned in area behind a building is no

one's idea of a solution. Can you please help us push this expansion along? We also still have no answers about the possibility of a higher, more structured wall for the construction mess. The momentum we were so excited about seems to have completely halted.

We have our monthly parent meeting today with 37 disgruntled parents who want to see better protections for their kids. Please remember, these 2-5 year olds are enduring this very unwelcome (and completely unfair) noise and air pollution in their play space on a daily basis. We have one parent who is so frustrated by the lack of progress he is, out of his own pocket, paying to put new sod in what has become a mud pit of our yard. The kids are also still playing in sand that was clearly contaminated in those first weeks of construction. We have been trying to get pricing for replacement sand but we've gotten no response from the parks department. We need help here, please.

I understand that the holidays were a difficult time to find funding and time for our beloved school but, as we are now in a new year, this seems like a great opportunity for the council's office to show us that we have been heard and will be protected. We have a lot of disgruntled (voting) parents who felt very slighted by Councilman O'Farrel's inability to walk the 10 feet to our school from the senior center holiday party. Perhaps this can be his official invitation he needs to come and see what our very vulnerable population is being exposed to.

Again, we are grateful for the initial efforts you put into us. We just feel abandoned now. I look forward to hearing from you soon.

Thanks,
Stacy
